**Subject: Use of the NicCheck test strips for the 2013 "Quit to Win! Challenge"**

---

Dear Mr. Mossman,

We are pleased to inform you that we will start very soon the screening tests for the 14th edition of the provincial campaign **Quit to Win! Challenge**. We would like to thank you for providing us once again with the NicCheck strips.

We have been using the NicCheck test strips for many years in order to confirm our potential winners and we are always very satisfied with this practical, reliable and easy to use product.

Also, in the last few years, we had to ship the testing material to remote areas of the province so that our partners could confirm winners in their region. They also commented on their satisfaction with the ease of use of this product.

Thank you again for your ongoing support in our annual event and do not hesitate to call us for more information. We are very grateful for your collaboration year after year.
